Linkages Devinder Raj,2022-12-06 This book provides an overview of the Indianised kingdoms in premodern Southeast Asia. Pulling together multiple secondary sources, it studies the kingdoms in the Malay Archipelago, such as Langkasuka, one of the oldest kingdoms located on the cross-roads between India and China. It also examines kingdoms in greater Southeast Asia, including Chola, Srivijaya, Funan, Champa, Sailendra, Majapahit, Angkor and Ayutthaya, detailing how they all had connections with the kingdoms of the Malay Archipelago aforementioned. Sparked by a traveller's curiosity, the book captures some of the ongoing efforts in uncovering the history of this period, and addresses a dearth in Malaysia's often Malacca-centric historiography.

Online Film Production in China Using Blockchain and Smart Contracts Patrice Poujol,2019-03-04 This book explores the use of Blockchain and smart contract technologies to develop new ways to finance independent films and digital media worldwide. Using case studies of Alibaba and in-depth, on-set observation of a Sino-US coproduction, as well as research collected from urban China, Hong Kong, Europe, and the USA, *Online Film Production in China Using Blockchain and Smart Contracts* explores new digital platforms and what this means for the international production of creative works. This research assesses the change in media consciousness from young urban audiences, their emergence as a potential participative and creative community within dis-intermediated, decentralised and distributed crowdfunding and

crowdsourcing models. This research proposes solutions on how these young emerging local creative talents can be identified and nurtured early on, particularly those who now produce creative and artistic audiovisual content whether these works are related to film, Virtual Reality (VR), video game, graphic novels, or music. Ultimately, a new media content finance and production platform implementing blockchain is proposed to bring transparency in the film sector and open doors to emerging artists in digital media. Appropriate for both professionals and academics in the film industry as well as computer science.

O PRÍNCIPE DIGITAL MAÍRA CARNEIRO BITTENCOURT MAIA, 2016-08-17 Como fazer um jornalismo eficaz em meio a tantas possibilidades proporcionadas pela internet? Como conquistar e cativar a audiência que se pulveriza num vasto ambiente on-line? A jornalista e pesquisadora Maíra Bittencourt propõe que a resposta para esses questionamentos não está necessariamente em modelos, formatos e linguagens jornalísticos inovadores. Essa resposta está em um âmbito bem mais profundo. É preciso compreender as raízes da transformação e pensar naquilo que mudou nas estruturas de poder e no estilo de vida da sociedade. O livro *O Príncipe Digital* apresenta-se como um instrumento de reflexão acerca das atuais problemáticas sociais e políticas que afetam o Brasil e, por consequência, a comunicação no país. Com base em uma ampla e rigorosa pesquisa de campo realizada em 74 manifestações populares, entre os anos de 2013 e 2015, nas cinco regiões brasileiras, a autora propõe a reformulação de um conceito que atravessou a história moderna – o conceito de Príncipe. Levando adiante a teoria criada por Maquiavel e revisitada por Gramsci e Octavio Ianni, *O Príncipe Digital* aponta que se vive não apenas uma crise do jornalismo, mas, em todo o modelo de organização da sociedade, isso envolve o sistema capitalista, democrático e estruturado nas bases de poder vigentes nas sociedades ocidentais. Pela expressividade dos dados e profundidade teórica, o livro se torna um importante instrumento de pesquisa para aqueles que desejam repensar o jornalismo e compreender os fenômenos do Net-ativismo. A obra traz ainda respostas para questões como: qual o papel dos Youtubers e blogueiros na convocação de pessoas? Qual o espaço dos jornalistas? E quais os conteúdos que mais convocam a população?
